

Product Name	Description	Packaging	Product Code
<b>BOOSTER 280</b>	<b>Reinforcing Washing Liquid for Oil and Dirt Removal from Textile</b>	<b>20 kg</b>	<b>1010116</b>
		<b>5 kg</b>	<b>1010118</b>

### **Properties:**

- Neutral liquid with high concentrate surfactant system, which substantially boosts or reinforces the detergent performance of removing oil or grease based dirt.
- Also used as main washing detergent in cleaning all sensitive fabric, wool or blankets.
- Helps the detergent diffuse into the textile material and remove dirt and some stains more easily.
- Suitable for applying to both white and colourful fabric.
- Convenient to be used together with all types of main washing detergents, with or without bleach, and auxiliary washing products including chlorine bleaches.

### **Directions for Use:**

- Amount of use: 3-8 gr/kg of laundry in the main washing cycle. Dosing amounts are applied according to the dirtiness of laundry to be washed and the washing program.
- BOOSTER 280 is used with a main washing detergent. Any other auxiliary product can also be used in the same washing cycle, as BOOSTER 280 is compatible with all kinds of washing chemicals, including oxygen or chlorine based bleaches.
- Strongly recommended to be used with a main washing detergent and BOOSTER A for the linen washing with oily based dirt on, such as restaurant table sheets, or cook aprons.
- BOOSTER 280 is also used as a main washing material to wash sensitive fabric, wool or blanket. The amount of use for such applications is 10 – 15 gr/kg of laundry, while the temperature is adjusted to cold or 40°C at maximum.
- Compatible to be used together with all the auxiliary washing or bleaching products, including chlorine based bleach or containing chlorine products.

### **Safety Tips:**

- Keep away from the reach of children.
- Avoid contact with eyes.
- Wash hands after use.
- Do not mix with any other chemicals.
- Keep the container tightly closed.
- Store in a dry and cool place.

### **Packaging:**

- 20 kg of plastic container with a tap under the lid.
- 5 kg of plastic container; 4 in a carton box.
